

## Dead Certainty: The Death Penalty and the Problem of Judgment

By Jennifer Louise Culbert

Stanford University Press. Paperback. Book Condition: new. BRAND NEW, Dead Certainty: The Death Penalty and the Problem of Judgment, Jennifer Louise Culbert, "Dead Certainty" is about the challenge of judging matters of public concern without a common sense of the good or other shared criteria that validate final decisions. Examining both the philosophical and the practical aspects of this challenge, this book focuses on United States Supreme Court opinions that authorize and regulate the practice of sentencing people to death. Unlike other books that discuss capital punishment, it does not argue for or against the death penalty. Instead, "Dead Certainty" contributes to a larger project in contemporary political and legal philosophy: re-imagining how people in today's world give coherence and meaning to their shared experience. Culbert's work will be of interest to scholars of political theory, jurisprudence, law and society, rhetoric, continental philosophy, and ethics.

In his *Genealogy of Morals*, Nietzsche offers an analysis of the ways that the modern subject develops into a moral and political being. Against the (Aristotelian) idea that human beings are by nature political animals, or the sense that individuals are naturally capable of making promises (Hobbes, Rousseau) that bind them, he argues that modern political subjects are violently fabricated over several centuries. In other words, they "evolve" from "pre-moral" entities into moral and political beings capable of projecting promises into the future, making social contracts and being held responsibl
