Keen Boiler. (Note: Click on a picture to see a larger view and then use your browser to enlarge it further.) It drew 30 amps. The real problem was with the lack of a flame holder such as a Beckett burner has.Â Keen Steamliner #2 and Scot Finnegan and Ken Helmick in a staged photo looking at the engine and water pumps. Originally this came with a Stanley style water pump that I replaced with two Hypro pumps with electric air conditioning pump clutches because only one is needed at a time.
