## OVERVIEW

### ABOUT THE BOOK

Dinosaurs burp, throw their food, blow bubbles in their milk and more during meals, as their human parents stand at the side scowling at the lack of manners, continually questioning if this is how dinosaurs behave while eating their food. Of course they don't. They have good manners at mealtime, as demonstrated in the final pages of the book. The author includes the name of each dinosaur both on the end papers and on each page, although one has to search the page to find it.
