A book that provides a treatment of microeconomic theory that stresses the relevance and application to managerial and public policy decision making. An Applied Approach To Micro. This text incorporates over 100 real-world examples into the flow of the text, rather than as segregated boxed features, which highlight the application of microeconomics to real managerial and public policy decisions. Many new examples have been added to the new edition, including: Condominiums versus Cooperatives in New York City; Chapter 8 (Ex. 8.1).
