a LANGE medical book

Jawetz, Melnick, & Adelberg's Medical Microbiology

Twenty-Seventh Edition

Karen C. Carroll, MD

*Professor of Pathology
The Johns Hopkins University School of Medicine
Director, Division Medical Microbiology
The Johns Medical Institutions
Baltimore, Maryland*

Jeffery A. Hobden, PhD

*Associate Professor
Department of Microbiology, Immunology and
Parasitology
LSU Health Sciences Center—New Orleans
New Orleans, Louisiana*

Steve Miller, MD, PhD

*Department of Laboratory Medicine
University of California
San Francisco, California*

Stephen A. Morse, PhD

*Associate Director for Environmental Microbiology
Division of Foodborne, Waterborne, and
Environmental Diseases
National Center for Emerging and Zoonotic
Infectious Diseases
Atlanta, Georgia*

Timothy A. Mietzner, PhD

*Associate Professor of Microbiology
Lake Erie College of Osteopathic Medicine
at Seton Hill
Greensburg, Pennsylvania*

Barbara Detrick, PhD

*Professor of Pathology
The Johns Hopkins University School of Medicine
Director, Clinical Immunology Laboratories
The Johns Hopkins Medical Institutions
Baltimore, Maryland*

Thomas G. Mitchell, PhD

*Department of Molecular Genetics and Microbiology
Duke University Medical Center
Durham, North Carolina*

James H. McKerrow, MD, PhD

*University of California
San Diego, California*

Judy A. Sakanari, PhD

*Adjunct Professor
Center for Parasitic Diseases
Department of Pharmaceutical Chemistry
University of California
San Francisco, California*

Notice

Medicine is an ever-changing science. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy are required. The authors and the publisher of this work have checked with sources believed to be reliable in their efforts to provide information that is complete and generally in accord with the standards accepted at the time of publication. However, in view of the possibility of human error or changes in medical sciences, neither the authors nor the publisher nor any other party who has been involved in the preparation or publication of this work warrants that the information contained herein is in every respect accurate or complete, and they disclaim all responsibility for any errors or omissions or for the results obtained from use of the information contained in this work. Readers are encouraged to confirm the information contained herein with other sources. For example and in particular, readers are advised to check the product information sheet included in the package of each drug they plan to administer to be certain that the information contained in this work is accurate and that changes have not been made in the recommended dose or in the contraindications for administration. This recommendation is of particular importance in connection with new or infrequently used drugs. The book was set in minion pro by Cenveo Publisher Services.

Neither McGraw-Hill Education nor its licensors shall be liable to you or anyone else for any inaccuracy, error or omission, regardless of cause, in the work or for any damages resulting therefrom. McGraw-Hill Education has no responsibility for the content of any information accessed through the work. Under no circumstances shall McGraw-Hill Education and/or its licensors be liable for any indirect, incidental, special, punitive, consequential or similar damages that result from the use of or inability to use the work, even if any of them has been advised of the possibility of such damages. This limitation of liability shall apply to any claim or cause whatsoever whether such claim or cause arises in contract, tort or otherwise.

Medical microbiology basically deals with the study of microorganisms that are both beneficial and harmful to both human and animal majorly. Branches of medical microbiology includes Virology, Bacteriology, Parasitology, algology and so on. It's major importance is that it helps in the identification, isolation, diagnosis and treatment of pa Continue Reading. Loadingâ€¦ Briefly, microbiology is the study of microbes or microorganisms and their interaction with the environment.
